DETAILED ACTION

Specification

The abstract of the disclosure is objected to because the abstract should be only one paragraph in length. Correction is required. See MPEP § 608.01(b).

The disclosure is objected to because of the following informalities: The specification lacks the proper headings.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 3, "the image region" and "the ham and loin region lengths, angles, areas, brightness and/or colour information"; on line 4, "the total weight"; and on line 7, "the result data" lack prior antecedent bases in the claim. On line 7, the term "tests" is unclear as to its meaning. On line 8, "the characteristic parameters and measured values" lacks prior antecedent bases in the claim. On line 11, "the active slaughtering operation" and "the yields" lack prior antecedent bases in the claims. On line 12, "the available relational data" and on lines 12 and 13, "the total weight" lack prior antecedent bases in the claims. The Applicant should review claims 2-9 for similar errors. And, lastly, in general, the method claims appear to not positively claim method steps and as such, it is difficult for the Examiner to understand how the claimed "method of determining in a non-invasive manner the trade classification, etc. is performed.
